An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: in the specification, on page 12, line 18, -in a central region,- has been inserted after "78" in order to provide antecedent basis for this newly claimed term of claims 1,8,11 and 14. Said term places these claims in condition for allowance.

The following is an examiner's statement of reasons for allowance: applicant's arguments of 6/29/06 are convincing with respect to claim 3 as the term "outermost edge" is taken to mean the periphery of the base , claim 5, in that the prior art does not show an opening such as 85 of Fig. 13 and claim 16, in that "tabs" are not taught as claimed as pointed out on page 13 of the 6/29/06 paper.

The second date in box 3 on the 326 of the 4/11/06 paper should have been 4/14/04 as opposed to 4/18/04.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
